Supporting B&H Connected

- Cutting greenhouse gas emissions
- Adapting to climate change
- Waste
- Built Environment
- Natural Environment
- Food

SUSTAINABILITY

Living within Environmental Limits
& Enhancing the Environment

Our Offer

The Living Coast programme provides an environmental vision for B&H Connected

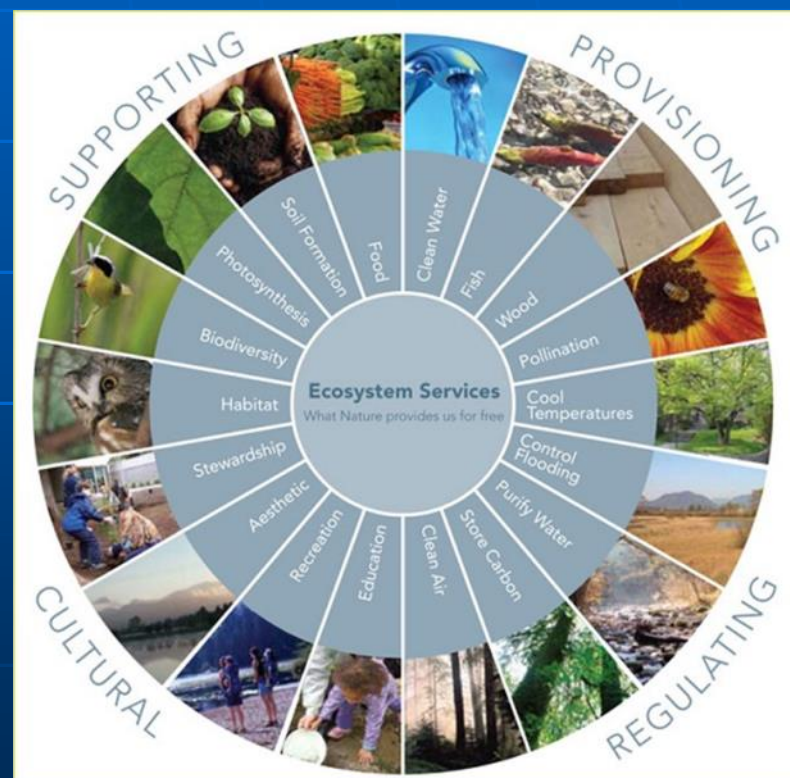

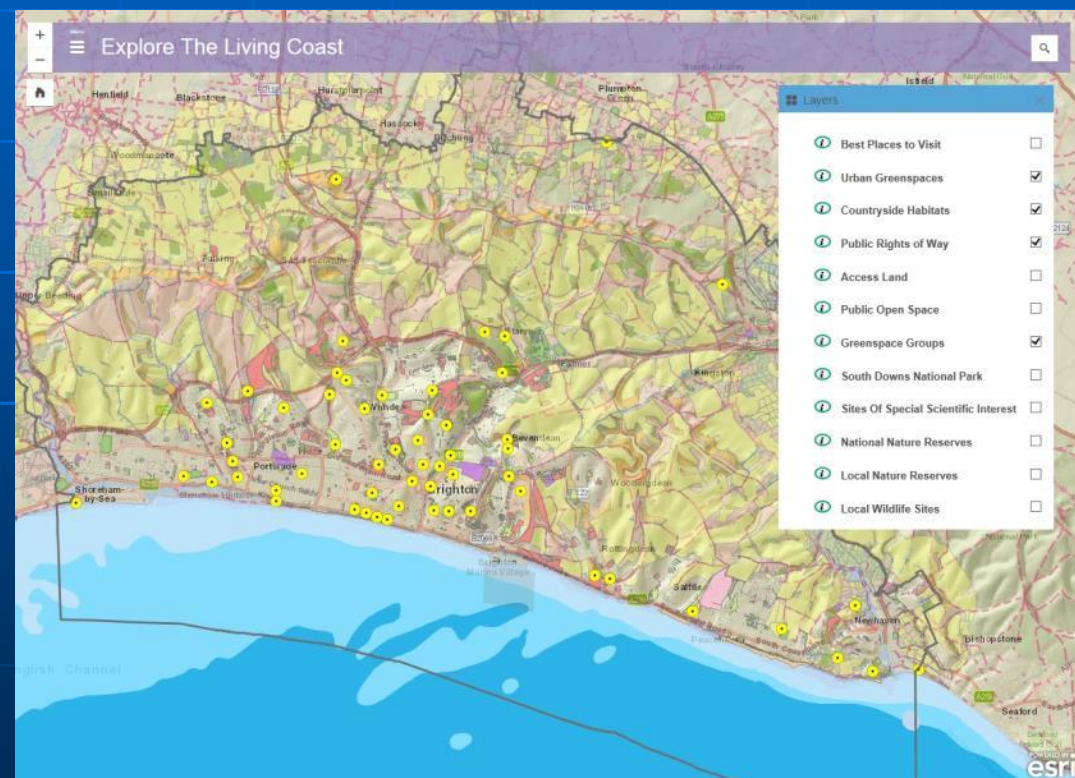

Our programme offers:

- a broad multi-sector partnership
- working strategically towards common goals, across administrative boundaries
- able to address complex environmental challenges
- accredited by the international best practice standard of UNESCO
- connected to a global network of expertise

Environmental Benefits

Ecosystem Services:

"What has the environment ever done for us?"

Economic Benefits

Our Biosphere is the foundation of Life here!

Quality 'ecosystem services' are essential e.g. water

Main direct economic benefit is through Tourism

Connecting people & nature through Culture and Arts

The Living Coast offers a new natural identity for our area

***If there was no
environment or conservation focus...***

Follow Your Better Nature
