INFORMATION IN THIS PROFILE

Notes

Where possible data is provided at locality level, but where the information is not available, or where numbers are very small, information is shown for Brighton & Hove and compared with the South East and/or England. Regional and national figures are included where available.

95% confidence intervals are shown in charts where appropriate and should be used when making comparisons. Where confidence intervals overlap, it is not possible to say that a difference is statistically significant.

BACKGROUND INFORMATION

[back to top](#)

Geographies

There are three localities within Brighton & Hove which formally divided GP surgeries in to three administrative areas, as seen in the map on page one. These localities have been superseded by new GP clusters, however as small geographies they continue to provide a useful geographical split of Brighton & Hove.

Deprivation

[back to top](#)

An update of the DCLG Index of Deprivation is due for publication in September 2015. This means that the 2010 IMD is becoming increasingly out of date. More recent population data from the 2013 ONS Population Estimates has been used to estimate the number of people aged 60+ living in pension credit households.

The number of people aged 65+ living in the most deprived quintile was aggregated from LSOA-level quintiles of deprivation.

Source: IMD 2010, ONS 2013 Mid-year population estimates	East		Brighton & Hove		South East		England	
	Number	%	Number	%	Number	%	Number	%
People aged 60+ living in pension credit households	4,290	24.1%	10,050	20.7%	Data not available			
People aged 65+ living in the 20% most deprived LSOAs	4,322	31.9%	6,555	21.4%				
People aged 65+ living in the 20% least deprived LSOAs	2,957	21.8%	10,398	28.0%				
People aged 65+ owning at least 1 car / van	7,107	55.9%	19,971	58.4%	1,084,796	76.3%	5,908,165	70.8%

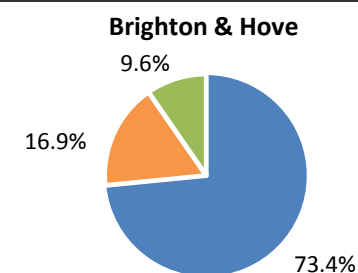

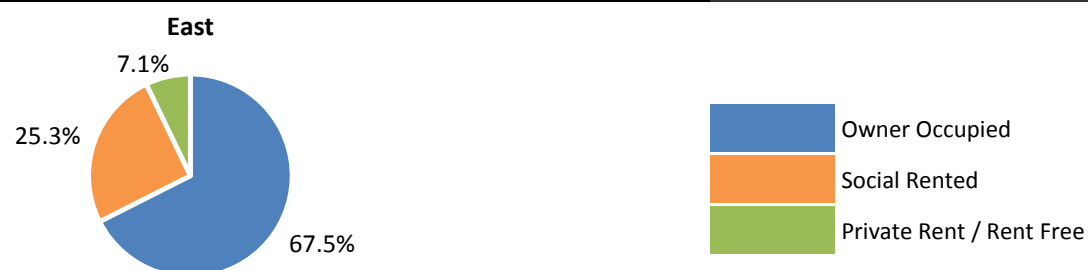

Housing and living environment

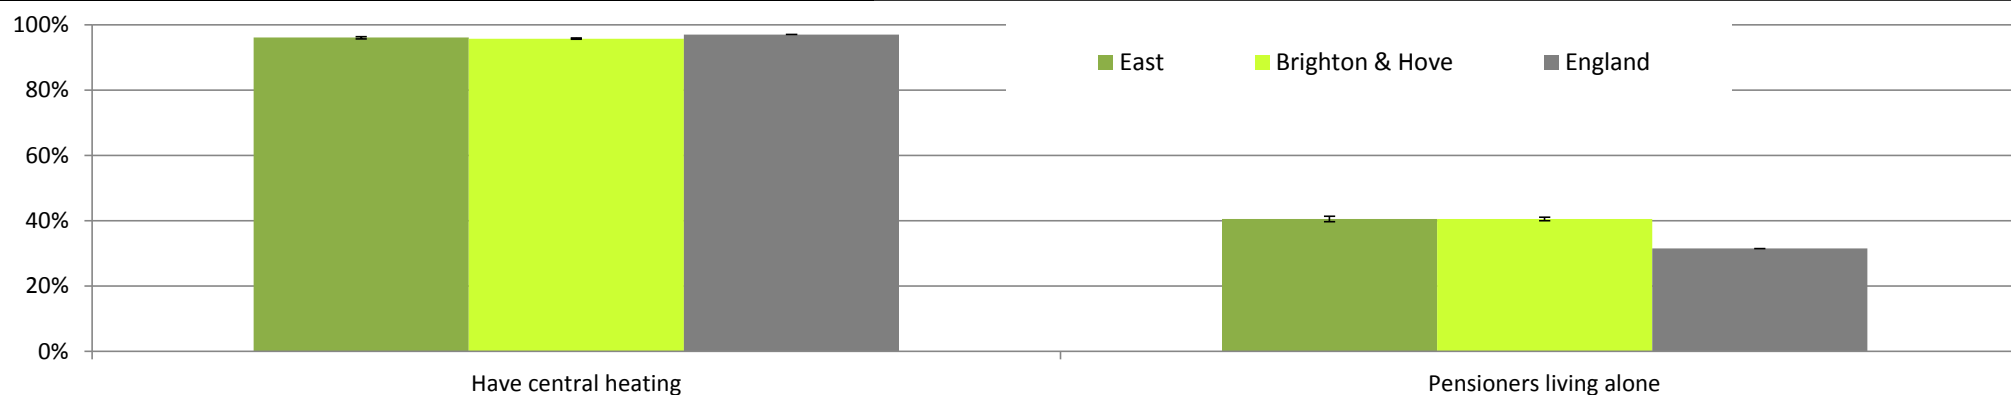

[back to top](#)

Data is for residents aged 65 years or above.

Source: 2011 Census	East		Brighton & Hove	South East	England
	Number	%	%		
% Owned	8595	67.5%	73.4%	82.2%	78.0%
% Social Rented	3221	25.3%	16.9%	12.3%	16.2%
% Private Rent/Living Rent Free	908	7.1%	9.6%	5.5%	5.8%

Source: 2011 Census	East		Brighton & Hove	South East	England
	Number	%	% of Households		
Have central heating	12225	96.1%	95.8%	97.6%	97.0%
Pensioners living alone	5288	40.5%	40.5%	30.4%	31.5%

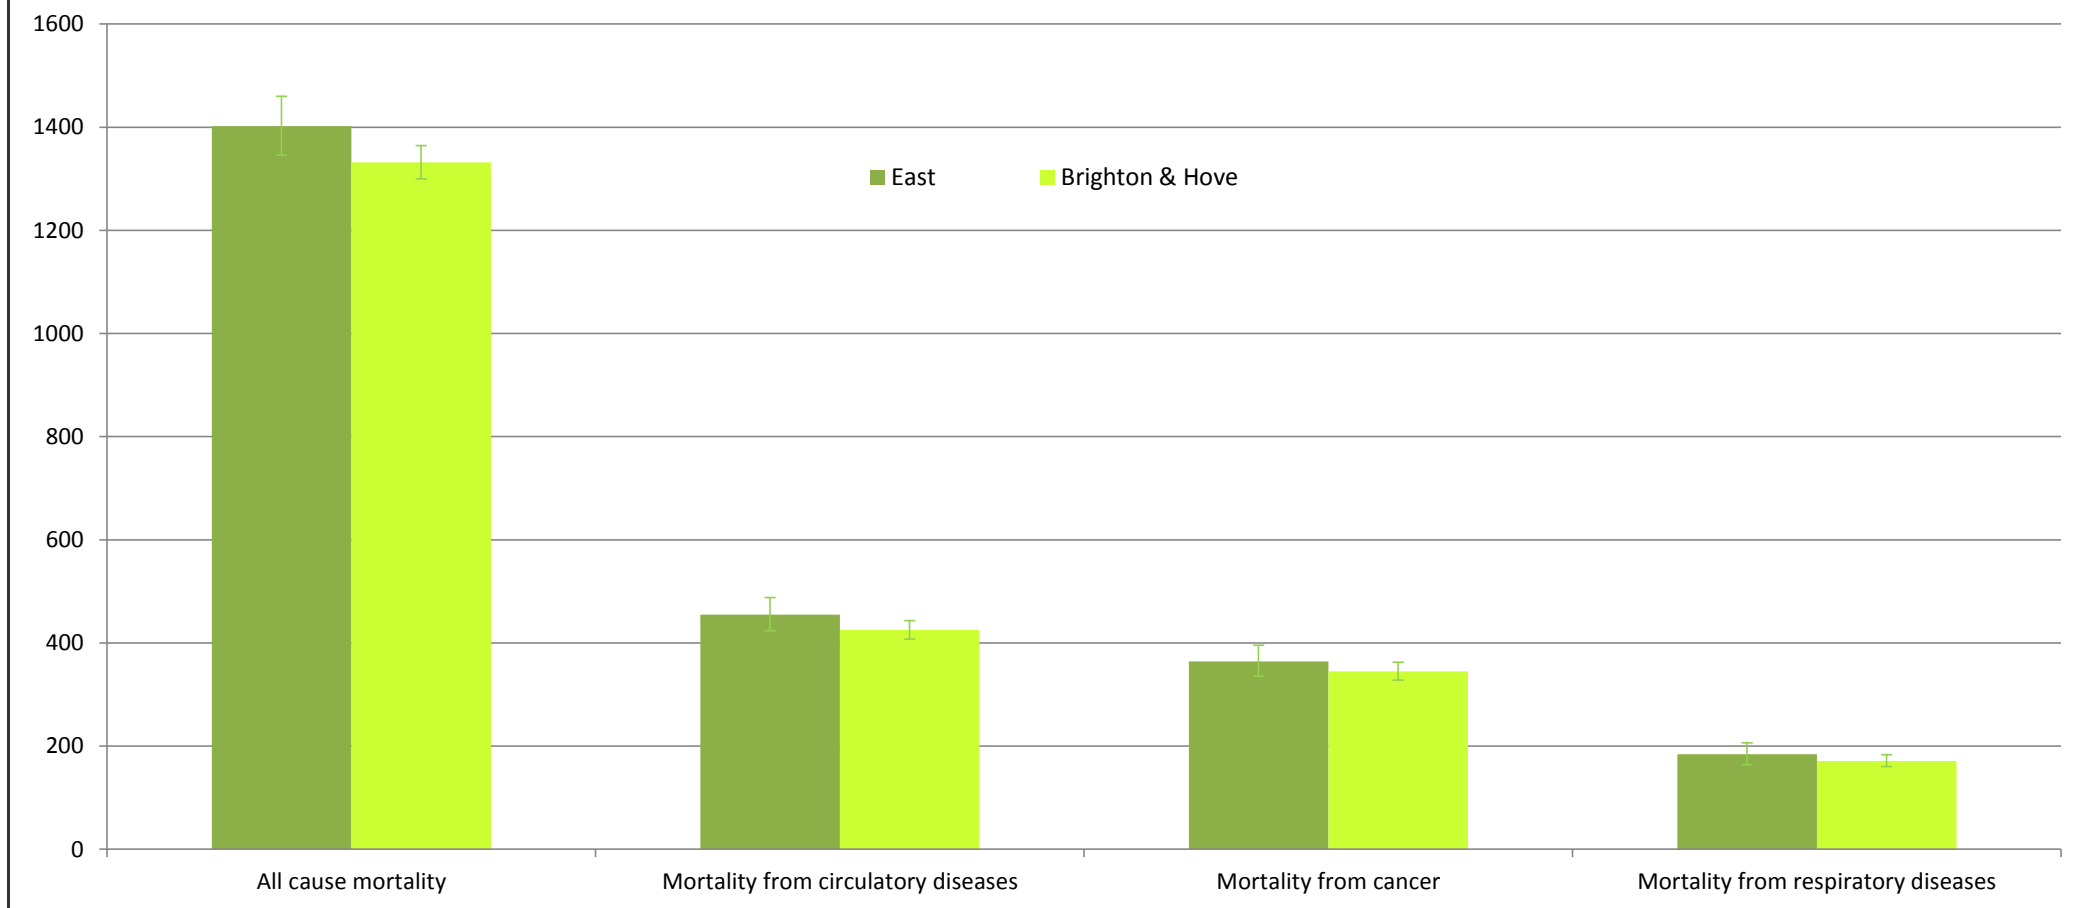

Mortality

[back to top](#)

Mortality among residents aged 75 years or above is shown as a rate per 100,000 residents, 2009-2013

Source: Public Health Intelligence, Brighton & Hove City Council	East	Brighton & Hove	
	Rate	Rate	
All cause mortality	1,402	1,332	
Mortality from circulatory diseases	455	425	
Mortality from cancer	365	345	
Mortality from respiratory diseases	184	172	

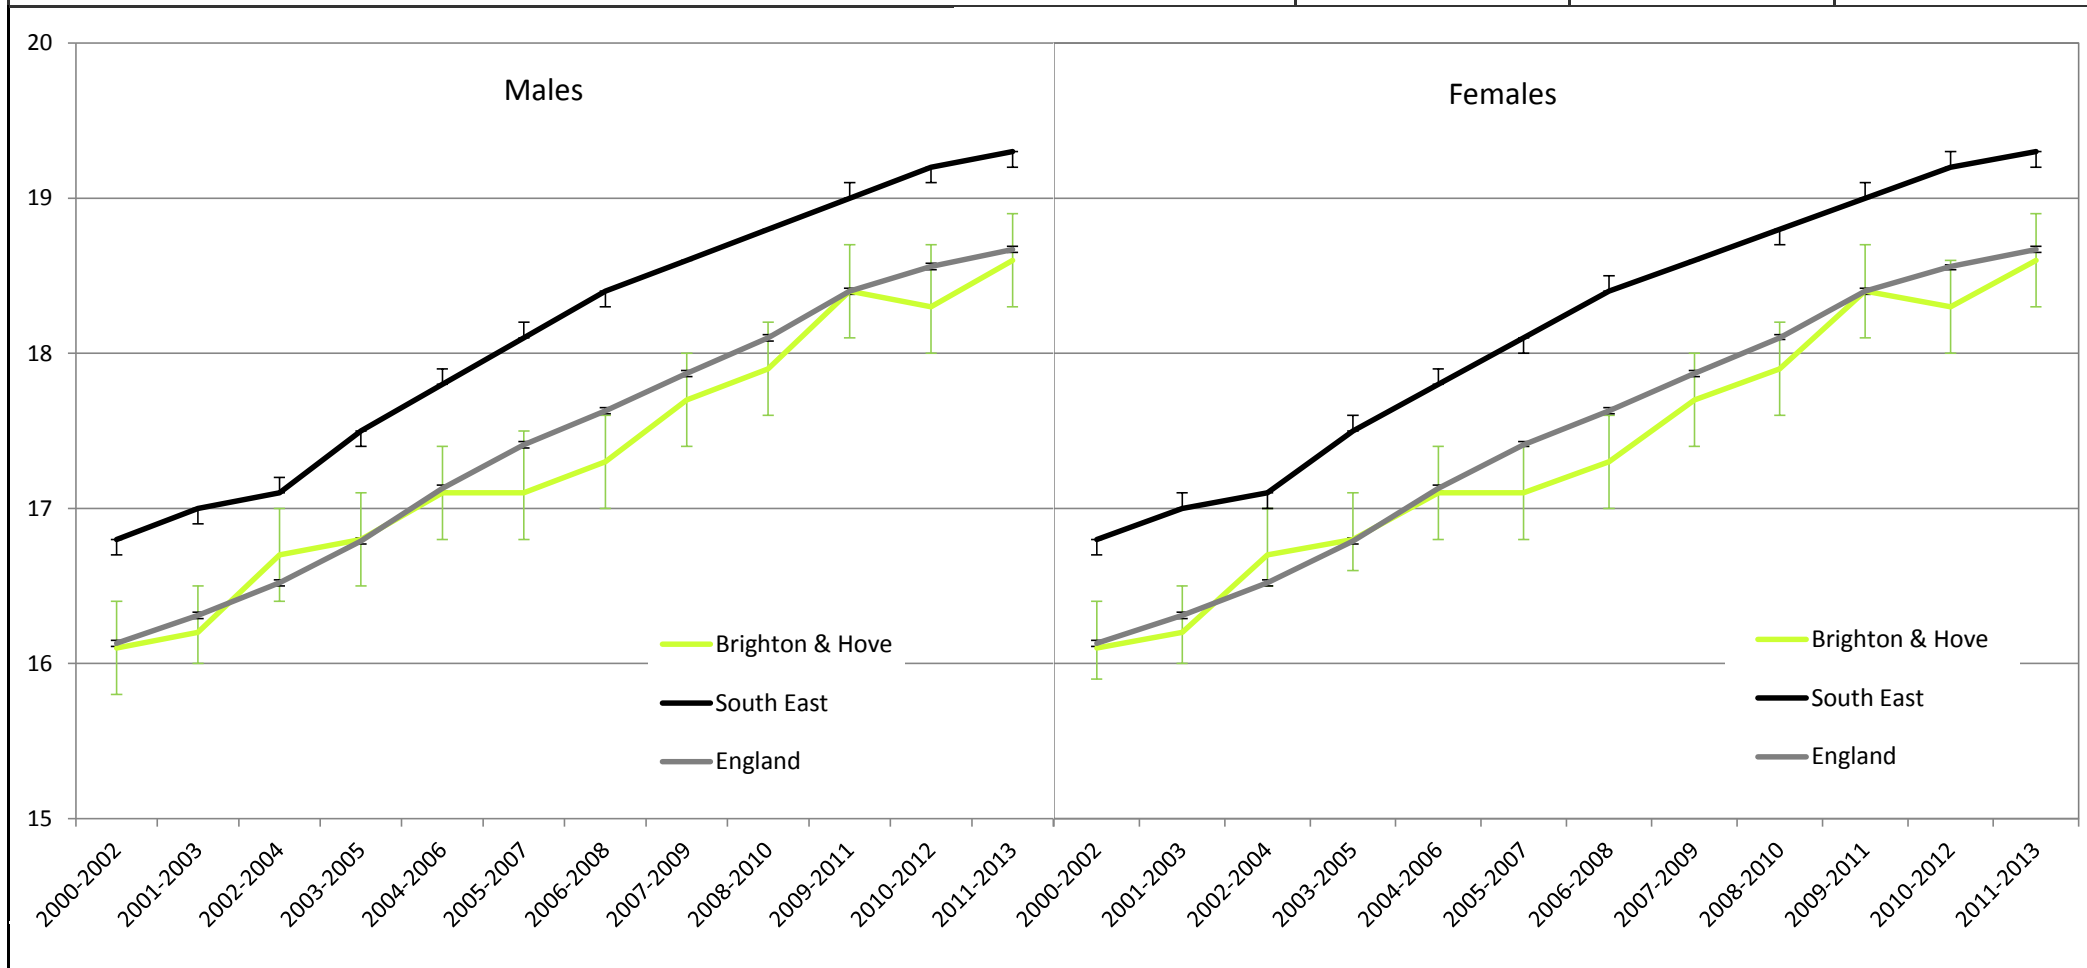

Life expectancy

[back to top](#)

Source: ONS Life expectancy at age 65 by local areas in England and Wales, 2011-13

Note: Data not available at locality level

	Brighton & Hove	South East	England
	Years	Years	Years
Life expectancy at age 65 (Males)	18.6	19.3	18.7
Life expectancy at age 65 (Females)	21.2	21.7	21.1

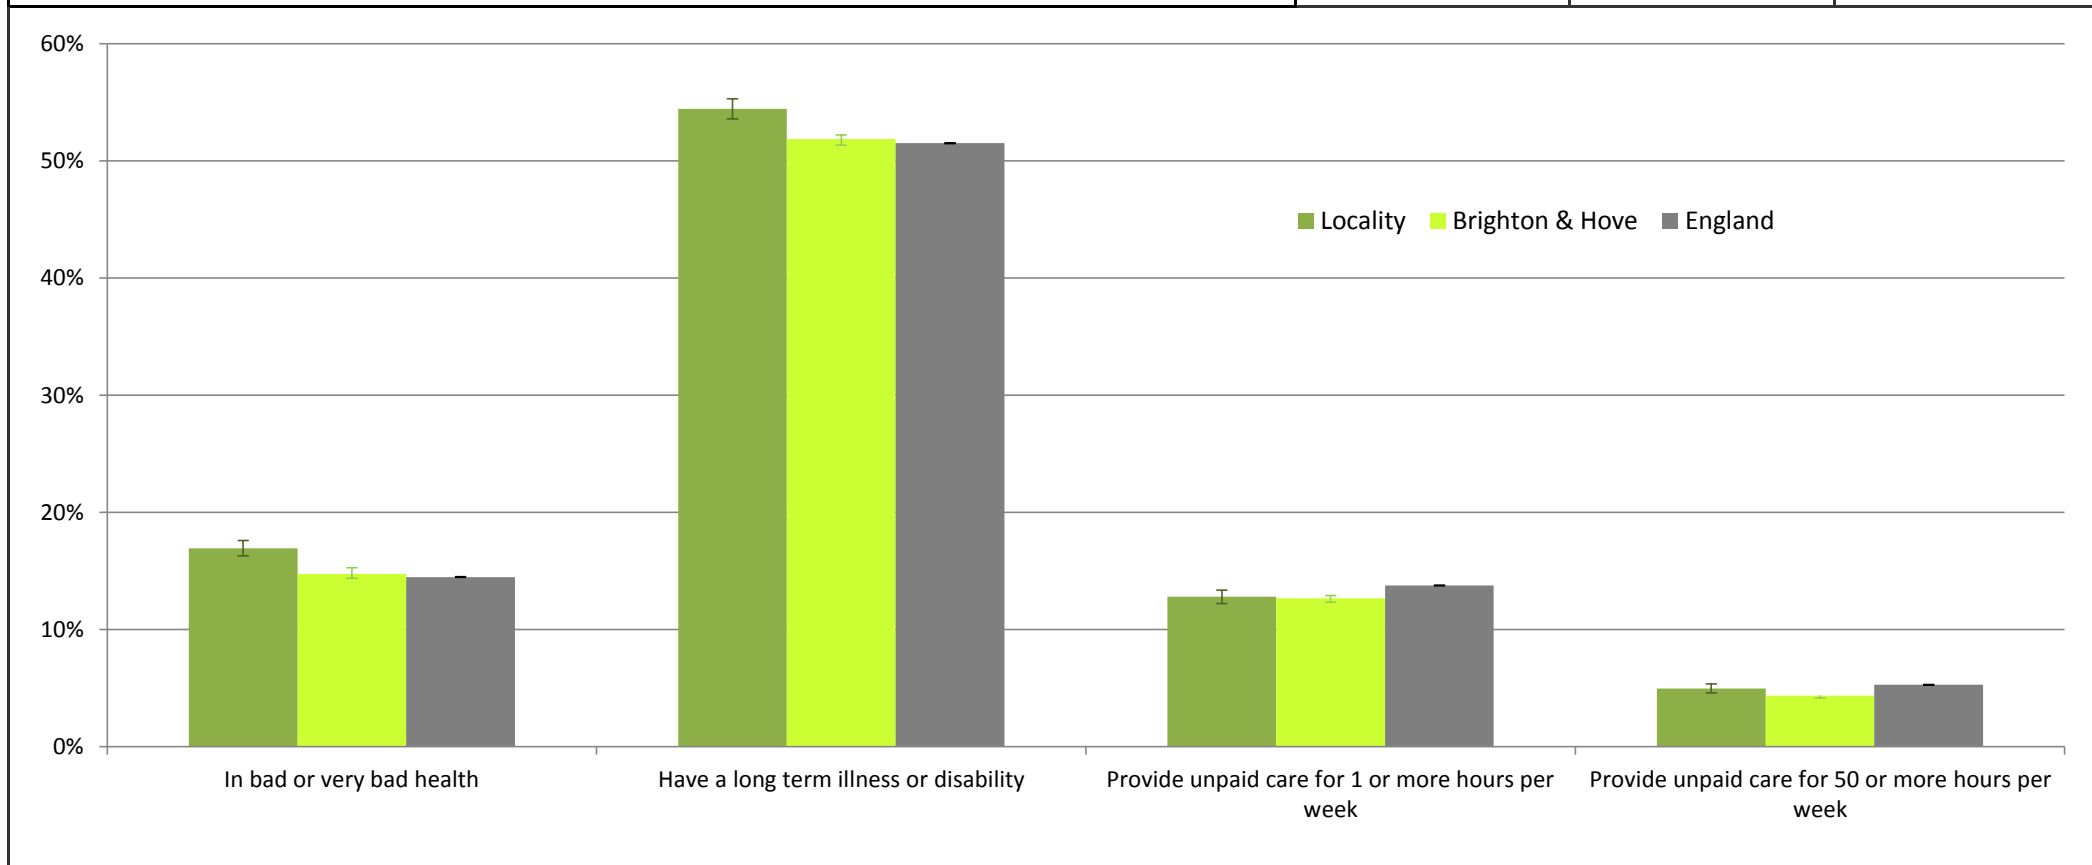

Health and care

[back to top](#)

Data on residents aged 65 years or older with limiting long-term illness (LLTI) or health conditions which act to affect activities of daily living has been taken from the 2011 census. A long-term health problem or disability that limits a person's day-to-day activities, and has lasted, or is expected to last, at least 12 months.

Source: 2011 Census	East	Brighton & Hove	England
	%	%	%
In bad or very bad health	16.9%	14.8%	14.5%
Have a long term illness or disability	54.4%	51.9%	51.5%
Provide unpaid care for 1 or more hours per week	12.8%	12.7%	13.8%
Provide unpaid care for 50 or more hours per week	5.0%	4.4%	5.3%

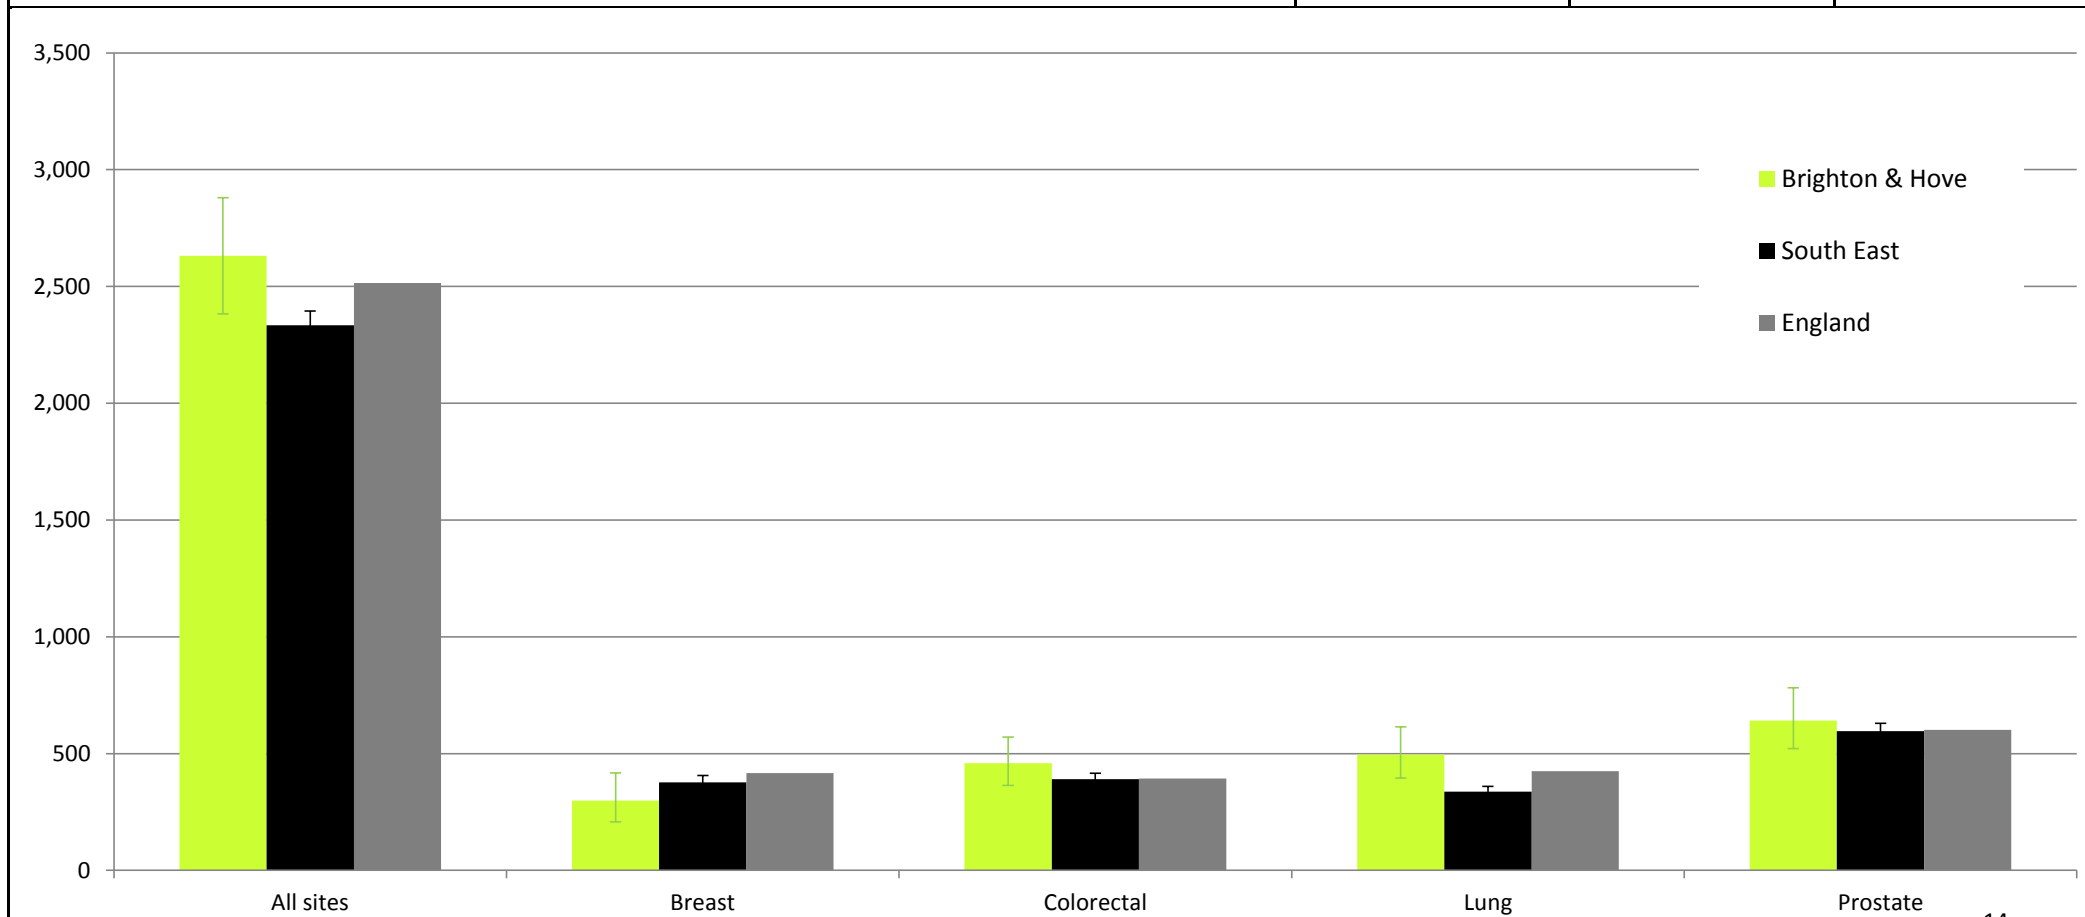

Cancer incidence

[back to top](#)

Cancer incidence for 2012 is presented among residents aged 75 years or above and is shown as age-standardised rates per 100,000 European Standard Population.

Source: Cancer Commissioning Toolkit	Brighton & Hove	South East	England
	Rate	Rate	Rate
All sites	2,631	2,333	2,515
Breast	299	377	416
Colorectal	459	391	393
Lung	496	336	424
Prostate	641	596	601

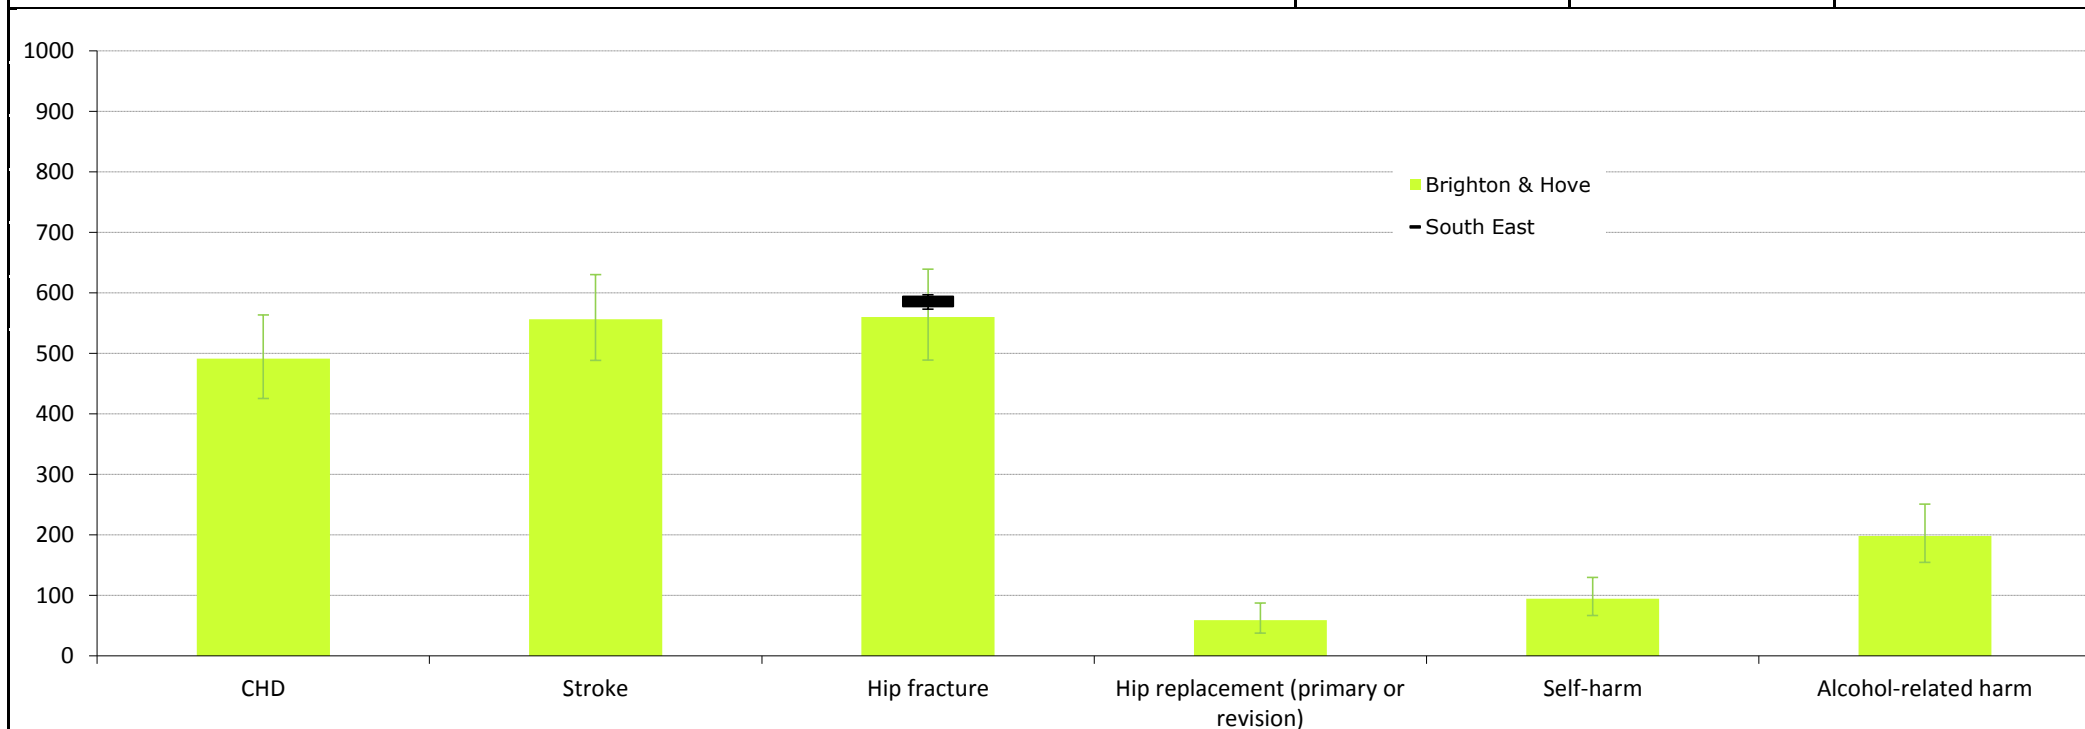

Emergency hospital admissions, other health conditions

[back to top](#)

Emergency hospital admissions are presented among residents aged 65 years of above and shown as age-standardised rates per 100,000 European Standard Population.
